REGIONAL EDITION

Habanos SA released the Regional Edition (Edición Regional) cigar series in 2005, as part of a directive to promote prime local brands that have limited international exposure towards specific market palates. As such, global and niche brands have been excluded from this series.

Regional Edition cigars are made from reserve-grade tobacco selected from a vitola presently in production but excluded from the specific brands range.

Further, these cigars typically produced on a one-off basis, available for up to a 2 year period. Following release, the cigar will be considered for inclusion in the current production range.

These limited release Habanos are recognizable by their red and silver second band which carries the name of the Region for which they are produced.

The launch of this series to the global market has given international collectors and novice smokers alike access an exclusive heritage Habanos experience beyond local shores.

Havana Club is pleased to bring this exclusive experience to our Malaysian patrons in offering 7 Asia Pacific Regional Edition Cigars as part of its extensive collection range.
